

DENTAQUEST VALUES

Values are truly what is important to the success of an organization. They provide the foundation for the company culture, describe how employees interact with one another and with our customers to ensure behaviors are consistent.

LIVE OUR MISSION

Our mission, *to improve the oral health of all*, is our true north. At DentaQuest, we believe that everyone should live a life free of dental disease. Each of us plays a vital part in achieving this mission by personally and passionately promoting *Preventistry*, our all in approach to improving the oral health of all. We believe that social impact and business performance go hand in hand.

ADVANCE OUR FUTURE

We are finding new and better ways to build our core business and empower people to lead healthier lives through improved oral health. We work across the industry—in care delivery, benefits administration, philanthropy, research and public health—to change how people think and approach oral health.

DELIVER EXCELLENCE

We hold ourselves accountable to exceed all of our customers' needs. We strive to achieve measurable outcomes and meet our commitments internally and externally. We are intentional about aligning our teams around big goals, the Voice of the Customer and designing purpose-built processes.

BE ONE DENTAQUEST

We foster inclusion, collaboration, camaraderie, commitment and trust. We break down silos and build interpersonal connections which enhance our engagement and ownership of team, functional and organizational goals all while having fun.

SEIZE YOUR OPPORTUNITY

As people with purpose, we harness our compassion to drive ongoing progress for ourselves, our teams and in our broader communities. We are dedicated to achieving stretch goals and learning new skills.
