

****IMPORTANT UPDATE****
2019 AHCCCS Medicaid
Dental Uniform Prior Authorization List

<Date>

Dear Provider(s):

We wanted to provide you an important update regarding the Uniform Prior Authorization process for emergency and sedation cases for the Child Under 21 and ALTCS/DD Adult Medicaid Plans.

DentaQuest will allow claims with the Uniform Prior Authorization procedure codes to process without a prior authorization for the Child Under 21 and ALTCS/DD Adult Medicaid Plans for pre-payment review ONLY in the event that there is a true dental emergency or treatment changes under sedation.

The Pre-Payment review requests must be submitted with supporting documentation and will be reviewed “post-service” by a Clinical Review Specialist to determine coverage and to certify that the services are medically necessary (benefit, frequency and non-covered service limitations will still apply). **If documentation is not provided to support a true dental emergency or treatment changes under sedation, the procedure codes will be denied for not having a prior authorization on file.**

The update will be effective 1/1/2019, if you have any services for dental emergency or treatment changes under sedation that were previously denied please resubmit the denied service code ONLY with the supporting documentation and indicate pre-payment review in Box 35.

These processes and criteria are outlined in Section 2.00 (Authorization for Treatment) and Section 18.00 (Clinical Criteria) in the DQ Office Reference Manual (ORM). *We strongly encourage you to familiarize yourself with the documentation requirements within these sections and the grid of the ORM.*

PLEASE NOTE: The UA PA list does NOT apply to the Medicaid Adult Emergency or the Medicare Advantage plans.

AHCCCS Uniform Authorization - Procedure Codes
