Up to  
**14 FREE**  
ADA Continuing  
Education (CE)  
credits  
available!

The DentaQuest Partnership Online Learning Center provides engaging resources for anyone looking to implement practice improvement and prevention-focused care within their unique environment.

## ONLINE LEARNING SERIES

Interactive online learning modules focusing on clinical care, practice management and more.

### DISEASE MANAGEMENT

A disease management series focuses on the key components of a prevention-focused model of care from birth to maturity.

**4 FREE CE credits available upon completion!**

**Contains 8 modules**

**Approximately 30-40 minutes each**

### SAFETY NET DENTAL PRACTICE MANAGEMENT

A practice management series provides best practices for the effective management of safety net dental programs.

**4 FREE CE credits available upon completion!**

**Contains 7 modules**

**Approximately 30-40 minutes each**

### ORAL HEALTH VALUE-BASED CARE

An oral health value-based care series highlights the integration of oral health care into primary health care, the benefits of payment reform and stories of transformation in action.

**3 FREE CE credits available upon completion!**

**Contains 3 modules**

**Approximately 60 minutes each**

### SPECIAL TOPICS

Special topics include live lectures and online modules that address working with extremely young patients and handling patient home care.

**3 FREE CE credits available upon completion!**

**Contains 3 modules**

**Approximately 60 minutes each**

## Disease Management Series

This learning series consists of individual modules designed to promote and increase prevention-focused thinking about oral health care.

- Module 1:** Implementing a Culture of Disease Management
- Module 2:** Caries as a Chronic Disease
- Module 3:** Caries Risk Assessment
- Module 4:** Caries Management by Risk Assessment: CAMBRA
- Module 5:** Dental Caries Management: Perinatal
- Module 6:** Dental Caries Management: Newborn to Age 5
- Module 7:** Dental Caries Management: Age 6 through Adult
- Module 8:** Interim Therapeutic Restoration

## Oral Health Value-Based Care Series

This learning series consists of individual modules designed for any health professional who has an interest in transforming from traditional dental care to oral health value-based care (VBC). VBC promotes wellness, collaboration with other providers and creates a more efficient system to allow patients more control over their own care outside of the clinic.

- Module 1:** Oral Health Value-Based Care
- Module 2:** Payment Reform in Oral Health Care
- Module 3:** Oral Health Value-Based Care: Transition in Practice **NEW**

## Safety Net Dental Practice Management Series

This learning series consists of individual modules designed for dental directors and dental practice managers. The modules provide an overview of the main components of practice management for a Safety Net Dental Program.

- Module 1:** Developing Billing Excellence: Getting Paid for What You Do
- Module 2:** Fee Schedules
- Module 3:** Safety Net Dental Program Finance and Productivity: Your Mission and Your Margins
- Module 4:** Front Desk Customer Service
- Module 5:** The Front Desk: Creating Your Dream Team
- Module 6:** Managing Chaos in the Dental Program
- Module 7:** Scheduling by Design

## Special Topics Series

This learning series consists of individual modules designed to increase your knowledge of special topics around improving oral health.

- Module 1:** ECC Management for the General Dentist
- Module 2:** Interprofessional Practice
- Module 3:** Potty Mouth

We also offer free CE credits through our live webinars.
